

## Southampton SPCR internship projects 2025

<b>Name &amp; email supervisor(s):</b> Dr Kate Greenwell, <a href="mailto:K.Greenwell@soton.ac.uk">K.Greenwell@soton.ac.uk</a>
<b>Length and dates of internship:</b>  4 weeks, July-August 2025 (flexible)
<b>Host department:</b> Primary Care, Population Sciences and Medical Education, University of Southampton
<b>How will the internship be conducted:</b>  <input type="checkbox"/> In person at the university <input type="checkbox"/> Virtual/ from home <input checked="" type="checkbox"/> Both are possible, depending on preference of student
<b>Title internship project:</b> Interventions to support carers and couples living with long-term conditions
<b>Summary of the internship project:</b> <i>(max 250 words, can include hyperlinks to further information)</i>  The intern will assist with several Primary Care Behavioural Science projects aiming to support carers and couples, including: <ol style="list-style-type: none"><li>1. A systematic review of primary care interventions to support carers;</li><li>2. A scoping review of couples-focused interventions to support people living with chronic pain and their partners (<a href="https://www.southampton.ac.uk/research/projects/691-couples-experiences-of-co-managing-low-back-pain-qualitative-interviews-with">https://www.southampton.ac.uk/research/projects/691-couples-experiences-of-co-managing-low-back-pain-qualitative-interviews-with</a>); and</li><li>3. An evaluation of a digital intervention to support carers of people with Parkinson's disease and cognitive impairment (<a href="https://hosting.northumbria.ac.uk/isupportpd">https://hosting.northumbria.ac.uk/isupportpd</a>)</li></ol> Tasks may include searching electronic databases, screening papers for inclusion, data extraction, transcribing qualitative interviews, updating intervention (website) content, and cleaning and analysing website usage data.
<b>Learning objectives:</b> <ul style="list-style-type: none"><li>• To develop skills in systematic literature searching, such as searching electronic databases, screening papers for inclusion, and data extraction.</li><li>• To gain an understanding of behavioural interventions to support carers and couples.</li><li>• To gain insights into academic careers in primary care and behavioural science.</li></ul>
<b>Any further information:</b>
